Effective Date: May 21, 2025

Dear Valued Patient,

Welcome to Amplehealth. Our mission is to provide you with exceptional care to support your health and well-being. Achieving optimal health is a shared responsibility, and we view our relationship with you as a partnership. As your partner in health, we ask for your active participation in the following ways to ensure the best possible outcomes:

- 1. Schedule Regular Health Exams and Screenings** I understand that it is my responsibility to schedule annual physical exams with my healthcare provider. During these visits, my provider will recommend health screenings tailored to my age, gender, personal health history, and family medical history. These screenings, such as mammograms, colonoscopies, immunizations, or pap smears, are critical for early detection of potentially life-threatening conditions. I acknowledge that focusing only on immediate health concerns without regular screenings may allow serious conditions to go undetected. I commit to scheduling routine exams and completing recommended screenings as advised by my provider.
- 2. Attend Follow-Up Appointments and Reschedule When Necessary** I recognize that follow-up appointments are essential for monitoring my health and evaluating my response to treatment. These visits allow my provider to assess my condition, order additional tests, adjust medications, refer me to specialists, or identify new health concerns. Missing or failing to reschedule an appointment could delay the detection or treatment of serious conditions. I will prioritize attending follow-up appointments and promptly reschedule any missed visits.

3. **Follow Up on Lab and Test Results** I understand that my provider aims to communicate lab and test results promptly. However, if I do not receive results within the timeframe provided by my provider's office, I will contact the office to inquire about them. Staying proactive ensures I remain informed about my health status and any necessary next steps.
4. **Communicate Decisions About Treatment Plans** I acknowledge that my provider will recommend treatments, such as medications, specialist referrals, diagnostic tests, or follow-up visits, based on their professional assessment of my health needs. Not adhering to these recommendations may negatively impact my health. If I choose not to follow my provider's treatment plan, I will inform them promptly so they can discuss potential risks and alternative options with me, ensuring I make informed decisions about my care.

Your Role and Rights As our patient, you have the right to be fully informed about your healthcare. We encourage you to ask questions, share symptoms, report concerns, or seek clarification about your health or treatment options at any time. Our team is here to support you with clear, compassionate communication.

Our Commitment to You At AmpleHealth, we are dedicated to delivering high-quality, patient-centered care. We value your trust and look forward to working together to achieve your best possible health.

Thank you for partnering with us.

If you have any questions or need assistance, please contact our office at: 916-966-8500 or email us hello@ample.health

Sincerely,

AmpleHealth

Acknowledgement By signing below, I acknowledge that I have received and understand the Patient Partnership Plan and agree to participate as a partner in my healthcare.
